PROFILE

Senior full-stack software engineer with 7+ years of experience shipping scalable web and mobile products across Vue, Angular, React Native, .NET, NestJS, Firebase, Azure and Web3. Strong record leading complex product builds at Specno, from school safety SaaS used across 60,000+ schools to AI-enabled gamification and blockchain-enabled renewable energy platforms. Known for clean architecture, pragmatic delivery, mentoring developers and translating business goals into maintainable technical systems.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), C#, Java, SQL, HTML, CSS, PHP

Front-End: Vue 3 (Composition API), Angular, React, React Native, Expo, Ionic, Capacitor, NgRx, Pinia, Zustand, TanStack Query, Skia, Tailwind CSS, SASS, Bootstrap

Back-End & APIs: .NET, NestJS, Node.js, Express, Java/Vert.x, Firebase, REST APIs, GraphQL

Data, Cloud & DevOps: Firebase Auth, Firestore, Storage, MongoDB, Docker, Azure, CI/CD pipelines, microservices architecture

AI & Web3: OpenAI API integration, Solidity, Web3, NFT smart contracts

Testing & Practices: Jest, Puppeteer, Mockito, Selenium, unit/integration/E2E testing, Agile/Scrum, code review, mentoring, technical documentation

Tools: Git, GitHub, Jira, Figma, VS Code, Xcode, Android Studio

EXPERIENCE

Full-Stack Software Engineer

Nov 2021 - Present

Specno - An Innovation Agency, Cape Town, South Africa

- Build and maintain full-stack web and mobile products for clients across education, energy, SaaS and platform engineering.
- Currently contributing to Raptor Technologies, a school safety SaaS platform serving 60,000+ schools across 55 countries, using Vue 3, .NET, Docker and Azure.
- Led development of Mirai, a goal-setting gamification mobile app built with React Native, Expo, Skia, Firebase, TanStack Query, Zustand, RevenueCat and OpenAI integration.
- Served as Senior Frontend Engineer on Momint, an NFT solar energy marketplace built with Angular, Ionic, NestJS, MongoDB, Solidity and Web3 technologies.
- Acted as Lead Full-Stack Developer on SBA Reading, a multilingual children's reading PWA in 3 South African languages with interactive colouring features, built with Angular, NgRx and Firebase.
- Mentor developers, run code reviews, collaborate with UX/UI and product teams, and make pragmatic technical decisions under delivery constraints.

Lead Frontend Developer

Mar 2019 - Nov 2021

Adept ICT, Stellenbosch, South Africa

- Led migration of a legacy dashboard from Vaadin to a modern Vue ecosystem, improving maintainability and alignment with current frontend practices.
- Built internal tools and client-facing dashboards using Vue 2, Vue Composition API, HTML, SASS, Bootstrap, Java, Vert.x, Docker and Azure.
- Supported automated testing and CI/CD practices to reduce release risk and improve code quality.
- Contributed to the South African Vue community and co-organized VueConfSA with Shailen Naidoo, which was later cancelled due to COVID.

Frontend Developer

Mar 2021 - Oct 2021

Longbeard, Remote, Rome, Italy

- Worked in a concurrent freelance role building and maintaining websites for international clients.
- Built and maintained client websites using React, Gatsby, GraphQL, PHP and WordPress.
- Handled site checks, updates, issue resolution and smaller feature implementations.

SELECTED PRODUCT WORK

Raptor Technologies, Platform Engineering - Vue 3, .NET, Docker, Azure

- School safety platform serving 60,000+ schools across 55 countries. Contribute to shared microservices, cross-team systems and technical direction.

Mirai, Lead Software Engineer - React Native, Expo, Firebase, OpenAI, Skia, RevenueCat

- Led mobile app delivery for goal setting, habit tracking, AI-powered goal suggestions and animated visual progress tracking.

Momint, Senior Frontend Engineer - Angular, Ionic, NestJS, MongoDB, Solidity, Web3

- Built frontend and hybrid mobile experiences for a renewable energy marketplace using fractional solar panel NFTs.

SBA Reading, Lead Full-Stack Developer - Angular, NgRx, Firebase

- Built a multilingual children's reading PWA with interactive coloring features for educational settings.

EDUCATION

Full Stack Web Development Certificate

2018 - 2019

Life Choices Academy, Cape Town

Intensive programme covering HTML, CSS, JavaScript, PHP, MySQL, design thinking and professional development.

Computer Systems Engineering

2017

Cape Peninsula University of Technology, Bellville

Electrical Engineering

2014 - 2016

Cape Peninsula University of Technology, Bellville

COMMUNITY & ADDITIONAL LEARNING

Vue community involvement, co-organizer of VueConfSA, mentoring junior developers, South African tech community

Udemy coursework: Vue.js, Scrum, Nuxt.js, Vert.x Java APIs, Reactive Programming
